## ASSESSMENT BACKGROUND INFORMATION

The assessment is named the Sixteen Personality Factor Questionnaire (16pf), which is a personality test used in various settings including employers of protective services personnel (e.g., police officers, firefighters and security guards). PSI conducted a Standard Setting Study for the 16pf questionnaire specific to an Applicant demonstrating that they are capable of exercising appropriate judgment, restraint and self-control for the purposes of carrying and using a firearm while performing armed security guard duties. Based on the results of the standard setting study, a 16pf cut score (pass/fail point) was identified to score Applicants' 16pf responses.
